

## Salon Owner/Manager Testimonials

Last Updated Saturday, 03 May 2008

Please take a few moments to read the testimonials from local salon owners/managers who have hired graduates of the Frederick School of Cosmetology.

Thomas Scott Salon and Spa I wanted to express my appreciation for the work you are doing at the Frederick School of Cosmetology. We have hired several students from the school and they have all been successful starting their career in the beauty industry. It is evident that you strive to graduate well rounded students ready for the work place. Each student has had the technical skills needed and the work ethics to be successful in the cosmetology field. We are grateful to have a school committed to professionalism in the Frederick area. Debra Lacoste, General Manager O'Hair I wanted to write to let you know how impressed I am with your graduates we have working in our salon. They are loyal, hard working, professional, and dependable. These qualities are very important to us in running our business. Thank you for all of your hard work that you put into your program. It is a pleasure to have people like this in our salon. Roxanne Pugh, Art Director Beauty Bar, Renee Beauty Salons, Inc. We have been employing students from the Frederick School of Cosmetology for about 3 years. The Beauty Bar is a company of 33 salons in 3 states and we employ over 400 hair stylists. We find graduates of the Frederick School of Cosmetology have great people skills, are attentive to customer needs and treat everyone with courtesy. These traits are some of the most important traits necessary for success in this industry. Additionally, the stylists we've hired are able to perform all technical skills proficiently and make their customers happy. Frederick School of Cosmetology graduates have great potential for growth within our company. A large part of the stylists success is due to the training and individual attention they received at the Frederick School of Cosmetology. Sarah Christen, Beauty Bar and Outlooks for Hair
